Nationality: Indian

Location: Lelystad, Netherlands

WORK SUMMARY

Azure DevOps (Sr.Consultant)

Capgemini (Tatasteel) | Feb 2022 - present

- Designed and implemented Azure features for various resources.
- Deployed resources using Infrastructure as Code (IAC) with Azure DevOps strategies and CI/CD pipelines, ensuring a streamlined and automated deployment process.
- Established secure network access principles by leveraging Private Links, vNet integrations and Managed Identities
- Experience working with AD and AAD(Microsoft Entra)
- Working in Scrum Agile methodology contributing to collaborative and efficient project management and development cycles
- Proficient in PowerShell, Bicep, and Azure Resource Manager (ARM) templates, enabling the implementation of Zero Touch policy Infrastructure as Code (IAC) practices.
- Birds eye view and strong basics of entire Azure Infrastructure
- Design of infrastructure architecture for cutting-edge technologies, including OpenAI, Azure Machine Learning, Azure Databases, Kubernetes, Azure Container Registry (ACR), and Azure App Services, enabling DevOps teams to contribute to sustainability and innovation.

Automation Expert(Member of Technical Staff)

Amadeus Software Labs | 2018 - 2022 Feb

- Architect and Deploy Citrix Infrastructures on Azure Cloud with DevOps Strategies
- Deploy Infrastructure as a Code
- Design and deploy Automated Configuration Management of Servers

Automation (Sr.Software Engineer)

Cerner Healthcare | 2015 - 2018

- Build Powershell Scripts for various Citrix Requirements
- Build GUI Tools with Powershell for Migrations and Self Service
- Design and Deploy Citrix Farms

System Engineer(Automation)

IBM(Contractor Artech)| 2014 - 2015

- Fortunate to work on 4th largest Citrix environment in the world with 32 + farms and 6000+ servers in a data critical health care Industry.
- Build Powershell Scripts
- Being mentored and trained by industry experts

ACADEMIC BACKGROUND

Bachelor of Engineering

Electronics and Communication | VTU University

CERTIFICATIONS

Microsoft AI Fundamentals (Active)
HashiCorp Certified: Terraform Associate (Active)
Microsoft Certified Azure Administrator AZ-104 (Inactive)
Azure Fundamentals (Active)
Pluralsight Certified PowerShell Expert (Active)
Citrix Certified Expert (Inactive)
Various Udemy Courses on Cloud, Python, Devops etc

HOBBIES

Guitaring
DIY Projects
Website Development

SOLVING PROBLEMS MAKES ME
HAPPY.
